

With a 13-year history in the construction industry, Ryan Olsen began his career in curb, sidewalk, gutter and bridge reconstruction. After many years of hands-on construction experience, in 2012, Mr. Olsen transitioned to the project management practice area. Before joining the Field Verified team, Mr. Olsen was a project engineer and project manager for a contractor specializing in waterproofing, expansion joints, sealants and weather barriers. This experience has provided Mr. Olsen with a high level of expertise on the installation methods and performance of building envelope systems. Mr. Olsen has an extensive understanding of waterproofing designs, both below- and above-grade, and brings vast knowledge and experience to exterior systems on Field Verified projects throughout the Southwest.

Construction Experience

Mr. Olsen credits his early days in the construction industry as a day laborer and later as a shop manager for the work ethic and skills necessary to understand the activities required to see a project through from start to finish. As a senior consultant and project manager, his personal perseverance and attention to detail is an asset that adds value to every Field Verified project.

In addition to his field extensive field experience, Mr. Olsen also holds the following certifications:

- OSHA 30-Hour Training for Construction
- Exterior Insulation Finish Systems (EIFS) Inspector Certificate
- Procore Fundamentals Certification
- Concrete Strength Lab Technician
- Grade 1 Concrete Field-Testing Technician
